

## Gloria Green Debuts 'Tranquil Series'

Abstract artist Gloria Green was proud to present her latest exhibit 'Tranquil Series' at U of T's Faculty Club, with many out for the opening reception to see her latest works. The pieces were created to evoke feelings of calmness and tranquility, a welcome break from the hectic lifestyle so many people lead. Green was in attendance at the reception to meet and greet guests and discuss her pieces. It was the perfect opportunity to enjoy a little tranquility, with a lovely evening of art and great company.
